## Description of the land

Real property description: Lot 1 on SP194537  
Local Government Area: Toowoomba Regional Council

## Approved activities

The approved activities are set out in Table 1 below.  
Definitions of the resource activities are included in Table 2 below.

This development approval confirms that the listed activities will not further impact Priority Agricultural Area on the subject land.

**Table 1: Approved activities**

Location	Resource activity
Lot 1 on SP194537	Four additional gas fired engines; four additional compressors; one triethylene glycol (TEG) gas dehydration unit; associated gas connection pipes, plant and equipment; one gas fired engine to provide power to an inlet fuel gas screw compressor.

**Table 2: Definitions**

Resource activity	Definition
Gas fired engine	The gas fired engines drive the reciprocating compressor packages.
Compressor	The reciprocating compressor packages increase inlet pressure of gas to export pressures.
Triethylene glycol (TEG) gas dehydration unit	The TEG package filters and dehydrates the compressed gas to meet specifications for export.
Associated gas connection pipes, plant and equipment	Upgrades to existing facilities to support the expansion and increase in capacity of the Central Gas Processing Facility, additional pipe work and utilities to support additional production requirements.
Gas fired engine to provide power to an inlet fuel gas screw compressor	Gas engine driven screw compressor package to increase inlet pressure of gas to provide fuel gas to the reciprocating compressors.

**General Advice**

It is the applicants' responsibility prior to works commencing on site to ensure all relevant approvals and licenses are obtained from the applicable Local, State, and/or Federal Authorities.
