Dear Sir or Madam

New Acland Coal Mine Stage 3 Project - RIDA Application reference F19/5990

Further to the requirement notice dated 4 September 2019 issued for this application, we have engaged SLR to address the matters raised in the notice.

So that this response can be submitted and available before the public notification of the application and to ensure transparency in the application that is notified, New Acland Coal Pty Ltd requests an extension of the period for commencement of public notice in accordance with section 36(1)(b) of the *Regional Planning Interests Act 2014* for a further 14 business days. NAC requires further time to that approved on 20 September 2019, to finalise the response to the requirement notice and collate the relevant documents, including running title searches for additional lots.

Can you please confirm this extension?

Please do not hesitate to contact us if you require further information.

Yours sincerely

NEW ACLAND COAL PTY LTD

Emma Knights
Environment and Approvals Manager
