Good afternoon Morag

As discussed via telephone call earlier today, we are seeking another extension to the due date for the first Requirement Notice received on 13 May 2021, regarding RIDA application, RPI21/025 Arrow – Surat Low Pressure Header Pipelines.

The latest extension we are seeking is till the 19 October 2021, to align with the due date for the second Requirement Notice.

The reason for this extension is to:

- allow time to complete the soil analysis and completion of a soil assessment report, following the recent soil sampling survey, which is proving to take longer process than first anticipated; and
- to continue progressing the final two Conduct and Compensation Agreements required for the LPH.

If you require any further information, please do not hesitate to contact me.

Kind regards
