Mitzi Venn

Manager: RPI Act Development Assessment

Department of State Development, Infrastructure and Planning

Dear Mitzi,

RE: METEOR DOWNS RIDA – ACTIVITIES PROPOSED

Following our conversations, I provide the following table to accompany the Figure showing the location of the mine and mine infrastructure on MLA 70452, which was sent to you yesterday. I hope this table makes it easier to identify the types of activities that will be undertaken on each Lot that makes up MLA70452.

As previously indicated, the area of regional interest is PAA, however the project does not impact on any PALU.

Lot	Resource Activity	Total Area of Disturbance on Lot
4RP617701	Extraction activities – includes pit, dump, water and sediment management systems, haul roads, plant parking etc	259.04 ha
1SP164068	Mine support activities – includes mine infrastructure area, ROM, crushing and screening, stockpiles, loadout, water and sediment management systems, haul roads	68.08 ha
1SP174071	Extraction activities - includes pit, dump, water and sediment management systems, haul roads, plant parking etc	50.72 ha
4SP170740	Mine support activities – includes haul road, water and sediment management systems, security facilities and offices, quarry	40.29 ha
2RP616045	Mine support activities – includes haul road, water and sediment management systems	8.52 ha

regards,

Phillip MH Hawes
