**Notification for Publication of Preliminary Documentation under the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) and invitation to comment.**

In accordance with Section 95A(4) of the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act) U&D Mining Industry (Australia) Pty Ltd (U&D) gives notice of the publication of the Meteor Downs South Coal Project (EPBC 2013/6799) Preliminary Documentation for public comments.

U&D propose the development of a small open cut coal mining operation, located approximately 25 km west of Rolleston and 45 km south east of Springsure in the Central Highlands region, Queensland. The proposed action was determined a Controlled Action under the EPBC Act with assessment by Preliminary Documentation. The controlling provisions under part 3 of the EPBC Act are listed threatened species and communities (Sections 18 and 18A); listed migratory species (sections 20 & 20A); and water resources in relation to coal seam gas development and large coal mining development (sections 24D and 24E).
