**RE: REQUEST FOR MINOR AMENDMENT UNDER SECTION 31(1) OF THE REGIONAL PLANNING INTERESTS ACT, 2014**

Dear Darren,

On behalf of Endocoal Pty Ltd and in relation to an application sought for a Regional Interests Development Approval (RIDA) (Application Number: RPI17-008), Northern Resource Consultants (NRC) seeks to utilise Section 31(1) of the *Regional Planning Interests Act 2014* (RPI Act) to amend an assessment application.

Submission is made to the Chief Executive to amend RIDA assessment application RPI17-008 to apply for exemption from public notification. It is considered by Endocoal Pty Ltd that the submission is a minor amendment.

Application for exemption from public notification has been made to the Department of Industry, Local Government and Planning (DILGP), Manager – Development Assessment on 6 October 2017. A copy of this application is included in Attachment 1.

A revised RIDA application form is provided in Attachment 2 to reflect the requested amendment (refer to last question of Section 4 of the completed RIDA application form).

As detailed in the application for exemption from public notification previously submitted, Endocoal Pty Ltd is in the final stages of project approvals for the Meteor Downs South project with expectation to commence operations in early November 2017. As a requirement under various legislative frameworks, public notification has been undertaken extensively for the Meteor Downs South project.

Further to the above, a previous application for a RIDA relevant to Priority Agricultural Areas (RPI14-002) within the Meteor Downs South Mining Lease has received approval and included an exemption from public notification. It is considered by Endocoal Pty Ltd that the circumstances relating to RIDA RPI17-008 are of a sufficiently similar nature to RPI14-002 and should be considered exempt from public notification.

With the above public notifications in mind, Endocoal Pty Ltd requests that the Chief Executive grant a minor amendment for exemption from public notification requirements of the RPI Act for RIDA application RPI17-008.

Sincerely,

Marty Costello

Principal Environmental Scientist

**RE: REQUEST FOR PUBLIC NOTIFICATION EXEMPTION UNDER SECTION 34(3) OF THE  
REGIONAL PLANNING INTERESTS ACT, 2014**

Dear Darren,

On behalf of Endocoal Pty Ltd and in relation to an application sought for a Regional Interests Development Approval (RIDA) (Application Number: RPI17-008), Northern Resource Consultants (NRC) seeks to utilise Section 34(3) of the *Regional Planning Interests Act 2014* (RPI Act) to obtain an exemption from the Chief Executive for public notification requirements of the RPI Act for the Meteor Downs South project.

**Justification for exemption from public notification**

Endocoal Pty Ltd is in the final stages of project approvals for the Meteor Downs South project with expectation to commence operations in early November 2017. As a requirement under various legislative frameworks, public notification has been undertaken extensively for the Meteor Downs South project as detailed below.

Further to the above, a previous application for a RIDA relevant to Priority Agricultural Areas (RPI14-002) within the Meteor Downs South Mining Lease has received approval and included an exemption from public notification. It is considered by Endocoal Pty Ltd that the circumstances relating to RIDA RPI17-008 are of a sufficiently similar nature to RPI14-002 and should be considered exempt from public notification.

***Public notification under the Environmental Protection and Biodiversity Conservation Act 1999***

The following public notifications were undertaken in relation to the *Environmental Protection and Biodiversity Conservation Act 1999* (EPBC Act):

- Draft Environmental Authority, Certificate of Application and Certificate of Public Notice – public notification period from 11 November 2013 to 29 November 2013.
- EPBC Referral – available via the Department of the Environment website since on or about 26 April 2013 (EPBC Ref: 2013/6799)
- EPBC Publication of Preliminary Documentation – public notification period from 6 June 2014 to 7 July 2014
- Closure of PD Comment Period – public notice date 11 July 2014.

Evidence of public notification is provided in Attachment 1.

### *Public notification under the Water Act 2000*

The following public notification were undertaken in relation to the *Water Act 2000* (Application Number: 584687):

- Application for a water licence Public Notice – public notification period from 24 March 2017 to 15 May 2017
- Permit to Take – Information Notice – public notification period from 31 May 2017 to 11 July 2017
- Permit to Take – Information Notice – public notification period from 1 March 2015 to 10 April 2015.

Evidence of public notification is provided in Attachment 2.

### *Public notification under the Environmental Protection Act 1994 and Mineral Resources Act 1989*

Public notification was undertaken within September 2013 in relation to the *Environmental Protection Act 1994* (EP Act) and *Mineral Resources Act 1989* (MR Act) with regard to an application for Mining Lease 70452 and an associated Environmental Authority.

Evidence of public notification is provided in Attachment 3.

Further to the above public notifications, it is also noted that RIDA RPI17-008 is not in relation to a Priority Living Area and therefore public notification is not required under Section 13(1) of the RPI Act. Additionally, Endocoal Pty Ltd currently holds a Compensation Agreement with land owners to undertake land disturbance activities on lands associated with Mining Lease 70452.

With the above public notifications in mind, Endocoal Pty Ltd requests that the Chief Executive grant an exemption from public notification requirements of the RPI Act for RIDA application RPI17-008.

Sincerely,

Marty Costello  
Principal Environmental Scientist

Notification for Publication of Preliminary Documentation under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) and invitation to comment.

In accordance with Section 95A(4) of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act) U&D Mining Industry (Australia) Pty Ltd (U&D) gives notice of the publication of the Meteor Downs South Coal Project (EPBC 2013/6799) Preliminary Documentation for public comments.

U&D propose the development of a small open cut coal mining operation, located approximately 25 km west of Rolleston and 45 km south east of Springsure in the Central Highlands region, Queensland. The Meteor Downs South (MDS) Project would produce approximately 1.5 million tonnes per annum of thermal coal and have an anticipated life span of ten years. Coal produced would be exported from the Wiggins Island Coal Export Terminal or other port capacity that may become available in the Gladstone port.

The proposed action was determined a Controlled Action under the EPBC Act with assessment by Preliminary Documentation. The controlling provisions under part 3 of the EPBC Act are listed threatened species and communities (Sections 18 and 18A); listed migratory species (sections 20 & 20A); and water resources in relation to coal seam gas development and large coal mining development (sections 24D and 24E).

Public comments are invited on the MDS Preliminary Documentation. The documents are available for a period of 20 business days at the following locations:

- Emerald Library 44 Borilla St, Emerald
- State Library of Queensland Stanley Place, South Brisbane

A PDF version of the documentation can be downloaded at: <http://www.udmining.com.au/MDS>

Written submissions should be directed to: MDS Project, Level 1, 37 Brandt St BTP, Eight Mile Plains, QLD 4113 or emailed to [projects@udmining.com.au](mailto:projects@udmining.com.au)

All comments must be received by C.O.B 7 July 2014. Persons with special needs (e.g. for whom English is a second language or who have vision impairment) may contact U&D Mining for assistance on 07 3188 9101.

***(EPBC Ref 2013/6799)***

The following notice is published pursuant to Section 95(B) of the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act), it follows the recent completion of the formal public notification associated with the Meteor Downs South Project (EPBC 2013/6799). Please be advised that, during the formal notification period, no submission were received. Provided below is a copy of the original public notice.

U&D Mining Industry (Australia) Pty Ltd (U&D) is proposing the development of a small open cut coal mining operation, located approximately 25 km west of Rolleston and 45 km south east of Springsure in the Central Highlands region, Queensland. The Meteor Downs South (MDS) Project would produce approximately 1.5 million tonnes per annum of thermal coal and have an anticipated life span of ten years. Coal produced would be exported from the Wiggins Island Coal Export Terminal or other port capacity that may become available in the Gladstone port.

The proposed action was determined a Controlled Action under the EPBC Act with a Preliminary Documentation level of assessment. The controlling provisions under part 3 of the EPBC Act are listed threatened species and communities (Sections 18 and 18A); listed migratory species (sections 20 & 20A); and water resources in relation to coal seam gas development and large coal mining development (sections 24D and 24E).

The public was invited to review the draft preliminary documentation and to submit comments. The public submission period was advertised on 6 June 2014 and ran to the close of business on 7 July 2014.

No comments were received on the draft preliminary documentation.

The final preliminary documentation will be available for public information online at: <http://www.udmining.com.au/MDS>. This notice is for information only.

#### ADOPTION OF TEMPORARY LOCAL PLANNING INSTRUMENT 01/2016 – OPERATIONAL WORK WITHIN A FLOOD HAZARD AREA

Notice is given that at its council meeting on 14 March 2017, Central Highlands Regional Council adopted *Temporary Local Planning Instrument 01/16 – Operational Work within a flood hazard area* in accordance with section 117 of the *Sustainable Planning Act 2009*.

This temporary local planning instrument applies to all areas identified in the Flood Hazard Overlay on planning scheme maps OM005a – OM005i. The temporary local planning instrument will commence on **24 March 2017** and will cease to have effect on 23 March 2018.

The temporary local planning instrument is intended to address the significant risk of unmanaged filling and excavating in areas affected by flooding from resulting in adverse impacts as a result of a reduction in flood storage and changes to flows, velocities or levels for flood events.

Copies of the temporary local planning instrument are available for inspection and/or purchase at the Emerald Administrative Office, 65 Egerton Street, or can be viewed and downloaded from council's website.

#### PROPOSED MAJOR AMENDMENT TO CENTRAL HIGHLANDS REGIONAL COUNCIL PLANNING SCHEME 2016

Notice is given that Council is undertaking a major amendment, Amendment no. 2, to the *Central Highlands Regional Council Planning Scheme 2016*.

The proposed major amendment contains the following:

1. Textual changes to Part 5 Tables of Assessment.
2. Zone map changes to Schedule 2, and textual and associated map changes to Part 3 – Strategic Framework.

As per *Statutory Guideline 01/16*, Council is conducting a public consultation period for this major amendment of the *Central Highlands Regional Council Planning Scheme 2016* which will take place between **24 March 2017 and 12 May 2017**. During this period Council will accept submissions applicable to changes proposed in the major amendment. A properly made submission is made in writing including the submitters name, address and signature (unless being submitted electronically via [tplanning@chrc.qld.gov.au](mailto:tplanning@chrc.qld.gov.au)) It must also be received during the public consultation period and clearly state the grounds for the submission being made.

A copy of the amended planning scheme is available on Council's website at [www.centralhighlands.qld.gov.au](http://www.centralhighlands.qld.gov.au) It can also be inspected and purchased at the Central Highlands Regional Council's Emerald office located at the Corner of Egerton and Borilla Streets, Emerald.

This proposed major amendment applies to the planning scheme area of the Central Highlands Regional Council.

Copies of the amendment are available for inspection and/or purchase at the Emerald Administrative Office, 65 Egerton Street, or can be viewed and downloaded from council's website.

Dear Sir/Madam,

**Application for Water Permit: application reference 585155**

Attached is an information notice, which is advice of the decision and the reasons for the decision for the abovementioned application and a Water Permit granted with conditions in accordance with the provisions of the *Water Act 2000*.

Please take note of the conditions imposed on the water permit.

Notification of the completion of the construction of monitoring bore MW17S can be sent to [centralwaterservices@dnrm.qld.gov.au](mailto:centralwaterservices@dnrm.qld.gov.au).

Submission of the records of the volumetric take of groundwater and water level data of monitoring bores can be done through the Queensland Digital Exploration Reports system (QDEX).

Information about QDEX is available at the following page <http://www.dnrm.qld.gov.au/mapping-data/qdex-reports> and includes the form for becoming a registered user as well as the user guide for lodging reports required to be lodged under the *Water Act 2000* at [http://www.dnrm.qld.gov.au/data/assets/pdf\\_file/0005/188627/qdex-report-lodger-user-guide-water-act.pdf](http://www.dnrm.qld.gov.au/data/assets/pdf_file/0005/188627/qdex-report-lodger-user-guide-water-act.pdf). Please contact QDEX Support on ph. (07) 3035 5256 or email [gdexsupport@dnrm.qld.gov.au](mailto:gdexsupport@dnrm.qld.gov.au) for further information about registering as a user or if you have any problems with this process.

Some clients send a letter accompanying monitoring reports but please do not submit any letters through the QDEX system. Once a groundwater report has been submitted in QDEX, we receive an email alert advising us the report has been submitted and we will then carry out the technical review of the report.

Please note that this Water Permit does not negate the requirement to obtain any other approvals or to enter into other statutory arrangements.

If you have any further enquiries please call 1800 822 100 or email  
[centralwaterservices@dnrm.qld.gov.au](mailto:centralwaterservices@dnrm.qld.gov.au)

Yours sincerely

**Water Permit: 617448**  
**Expiry Date: 31/05/2019**

**Conditions: Schedule A**

**4.39**

Water must not be taken under this authorisation unless a measuring device of a type approved by the chief executive to measure the volume of water taken is installed.

**Water Permit: 617448**  
**Expiry Date: 31/05/2019**

**Conditions: Schedule B**

Refer to Schedule B attachment

## Conditions (Schedule B)

01. The water year is the period from 01 June to 31 May.
02. The take of water under the authority of this water permit must not commence before 01 June 2017.
03. The maximum extraction rate from this site must not exceed 200 ML per water year during the period of this water permit.
04. The amount of water taken under this water permit must be recorded by the holder of the permit on a monthly basis. The holder of the permit must forward the records to the chief executive within ten business days after the water year ends.
05. Prior to the take of water under this water permit, the holder of the permit must construct monitoring bore MW17S near the location indicated in Figure 10-2 of the document "Application for Groundwater Supply Permit – Meteor Downs South – AGE March 2017". The holder of the permit must notify the chief executive of the installation of monitoring bore MW17S within ten business days after completion.
06. The holder of this permit must measure and record underground water levels in the monitoring bores as listed in Table 1, and forward the records to the chief executive within ten business days after the water year ends.

**Table 1.** Meteor Downs South's Monitoring Bores under this water permit

| Monitoring Bore ID | Geology   | Monitoring Frequency               |
|--------------------|-----------|------------------------------------|
| MW1S               | Basalt    | Quarterly underground water levels |
| MW2S               | Basalt    | Quarterly underground water levels |
| MW3S               | Basalt    | Quarterly underground water levels |
| MW4                | Basalt    | Quarterly underground water levels |
| MW7S               | Colluvium | Quarterly underground water levels |
| MW14S              | Colluvium | Quarterly underground water levels |
| MW15S              | Colluvium | Quarterly underground water levels |
| MW16S              | Basalt    | Quarterly underground water levels |
| MW17S              | Basalt    | Quarterly underground water levels |

07. In the event of a stock and/or domestic underground water supply on an underlying or neighbouring property being unduly affected as a result of the taking of water under the authority of this water permit, the holder of the permit must enter into arrangements to make good the supply of water to such property.
08. Water can no longer be taken under the authority of this water permit upon any granting of a licence to take non-associated water from the Basalt with a point of take on or under Mining Lease 70452 to the authorisation holder.
09. Notwithstanding the reporting requirements of Conditions 04 and 06, within ten business days of the issue of a water licence as specified in Condition 08, a report of the total extraction of underground water and water level data as required to be monitored under Conditions 04 and 06, is required to be submitted to the chief executive.

## **INFORMATION NOTICE**

### **Application: 585155**

This information notice is given with accordance with section 139 of the *Water Act 2000* ("the Act") in respect of the decision on the above application.

### **Background Matters**

Pursuant to section 137 of the Act, a person may apply for a water permit for taking water for an activity, and the activity must have a reasonable foreseeable conclusion date at the time the application is made.

Application 585155 seeks to authorise the taking of underground water from the Basalt formation for construction and mining purposes with the point of take on or under Mining Lease 70452 for a period of two years.

### **Evidence and other material on which findings of material questions of fact were made**

In making findings of fact in relation to this decision, I considered the following evidence and other material:

- Endocoal Limited's water permit application lodged on 21 March 2017 and supporting information submitted along with the application;
- DNRM's request for additional information and Endocoal Limited's additional information response;
- The departmental investigation dated 25 May 2017;
- The Act, specifically sections 2, 7, 137-142, 1259, 1264 and 1266;
- *Water Plan (Fitzroy Basin) 2011*; and
- Fitzroy Basin Resource Operations Plan 2014

### **Findings on Material Questions of Fact**

I made the following findings on material question of fact in relation to Endocoal Limited's water permit application:

- The application was considered to be properly made.
- Under the Native Title Work Practice for specific 'Dealings under the Water Act 2000 and Sustainable Planning Act 2009' the proposed dealing did not require native title notification for parcels 4/RP617701, 1/SP164068, 2/RP616045, 4/SP170740 and 1/SP174071 since native title does not exist due to freehold tenure.
- The *Water Plan (Fitzroy Basin) Plan 2011* and the Fitzroy Basin Resource Operations Plan 2014 do not have any constraints on applying for or granting a permit to take underground water.
- In accordance with section 1266 of the Act, a reference to a resource operations plan can be taken to be a reference to the relevant section of the water management protocol.
- Section 138 of the Act has been considered.
- Endocoal Limited's numerical underground water model predicts only a limited extent of drawdown due to the proposed take. The information indicates that there will only be one existing bore (RN 24262) that is within the >1m contour extent.

- Information available indicates that although the predicted drawdown on this bore is only 1-2m, there may be potential adverse impacts due to the low water levels already within the bore.
- A condition has been applied to the water permit to require the authorisation holder to "make good" the supply of any adversely affected surrounding bores.
- A condition has been applied to the water permit to require monitoring and reporting of water use and underground water levels.
- Supporting information provided by Endocoal Limited indicated that the estimated drawdowns are not predicted to extend under local streams other than partially under Spring Creek to the south-west.
- The supporting information identified that groundwater level measurements indicated that groundwater does not contribute to the creek flow.
- The Meteor Downs South Project will provide economic and social benefits to the region and the State of Queensland.
- Water use efficiency has been considered during assessment of this application, and the volume applied for is considered appropriate for the intended purpose.

### **Reasons for the Decision**

Having regard to the material and findings referred to above, I have decided that the granting of this authority, subject to attached conditions will not have a significant long-term impact upon:

- The entitlement of existing entitlement holders and permittees; and
- The sustainable management of the local aquifers and any associated natural ecosystems.

### **Internal review**

A person given this notice may apply for an internal review of the decision within 30 business days after the day the notice is given. If you are dissatisfied, you may apply for a review of the decision. An internal review application must be made in accordance with sections 851, 861, 862 and 863 of the Act. Copies of these sections of the Act are enclosed. The application form must be supported by enough information to enable the reviewer to decide the application.

**Principal Project Officer (Hydrology)**

# Chapter 6 Reviews and appeals

## Part 1 Interpretation

### 851 Who is an *interested person*

- (1) A person who has been given an information notice or a compliance notice by the chief executive, or an authorised officer appointed by the chief executive, is an *interested person*.
- (2) However, if the decision for which the notice was given is in relation to a water resource plan or a resource operations plan, the interested person may appeal only to the extent a different decision, consistent with the plan, could have been made.
- (3) A ratepayer or customer of a category 2 water authority who is dissatisfied with the authority's decision about a rate or charge made and levied on the customer or ratepayer is an *interested person*.
- (4) The decision or action for which a notice was given under subsection (1) or the decision mentioned in subsection (3) is an *original decision*.

## Part 2 Internal review of decisions

### 861 Appeal or external review process starts with internal review

Every appeal against or application for external review of an original decision must be, in the first instance, by way of an application for internal review.

### 862 Who may apply for internal review

- (1) An interested person may apply for a review (an *internal review*) of an original decision mentioned in—
  - (a) section 851(1)—to the chief executive (the *reviewer*); or
  - (b) section 851(3)—to the chief executive officer of the category 2 water authority (also the *reviewer*).
- (2) The application must be—
  - (a) in the approved form; and
  - (b) supported by enough information to enable the reviewer to decide the application.

### 863 Applying for an internal review

- (1) The application must be made within 30 business days after—
  - (a) if the person is given an information notice about the decision or a compliance notice—the day the person is given the information notice or a compliance notice; or

- (b) if paragraph (a) does not apply and notice of the decision is published—the day notice of the decision is published.
- (2) The reviewer may extend the time for applying for an internal review.
- (3) On or before making the application, the applicant must send the following documents to any other person who was given an information notice about the original decision—
  - (a) notice of the application (the **submitter notice**);
  - (b) a copy of the application and supporting documents.
- (4) The submitter notice must inform the recipient that written submissions on the application may be made to the reviewer within 5 business days after the application is made to the reviewer.
- (5) The application does not stay the original decision.
- (6) The application must not be dealt with by—
  - (a) the person who made the original decision; or
  - (b) a person in a less senior office than the person who made the original decision.
- (7) Subsection (6)—
  - (a) applies despite the *Acts Interpretation Act 1954*, section 27A; and
  - (b) does not apply to an original decision made by the chief executive; and
  - (c) does not apply to an original decision made by a reviewer who is a category 2 water authority.

Attachment 3: Public notice under EP Act and MR Act

**PUBLIC NOTICE OF APPLICATION FOR MINING LEASE  
AND ENVIRONMENTAL AUTHORITY (MINING LEASE)**  
*Mineral Resources Act 1989 – Section 252B*

Attachment 2: Revised RIDA application (RPI17-008)

# ***Regional Planning Interests Act 2014***

## **Assessment application form**

Approved under section 94 of the *Regional Planning Interests Act 2014*.

Version 3.0 is effective from 3 July 2017.

### **Before lodging your application**

1. Read RPI Act Statutory Guideline 01/14: How to make an assessment application for a regional interests development approval under the [Regional Planning Interests Act 2014](#)
2. Consider contacting the RPI Act Development Assessment team on 1300 967 433 or email [RPIAct@dilgp.qld.gov.au](mailto:RPIAct@dilgp.qld.gov.au) for general queries, or to request a pre-application discussion on the proposed application.

## **Purpose of application form**

This form is to be used when making an assessment application for a regional interests development approval (RIDA) under the *Regional Planning Interests Act 2014* (RPI Act).

### **Definitions**

Expressions highlighted in bold italic type have the same meaning as in the RPI Act or in regulations made under the RPI Act.

### **How to make the Assessment Application**

Section 29 of the RPI Act states:

An assessment application must be:

1. made to the chief executive in the approved form; and
2. accompanied by a report:
  - assessing the resource activity or regulated activity's impact on the area of regional interest; and
  - identifying any constraints on the configuration or operation of the activity; and
3. accompanied by the fee prescribed under a regulation.

The applicant must complete all sections of the form either on the form or as an attachment.

### **Where to lodge**

**The preferred method of lodgement is to upload the application form on the electronic registration and login system. Access to the RIDA system is available on the [DILGP Planning website](#).**

OR

Provide **1 electronic copy** of the completed application form and the supporting information to the chief executive:

- **Email:** [\*\*RPIAct@dilgp.qld.gov.au\*\*](mailto:RPIAct@dilgp.qld.gov.au)

## 9. Use and Disclosure of Information Statement

The information is collected in accordance with the RPI Act and will be used by Queensland Government Agencies for the processing and assessment of your assessment application, and may involve the chief executive:

1. and other officers of the DILGP, and any consultants engaged by or on behalf of the chief executive, reviewing the information provided for the purpose of considering and assessing your assessment application
2. providing a copy of the assessment application to relevant Queensland Government Agencies prescribed as assessing agencies for the assessment application (including the local government), the Gasfields Commission or any person asked to provide advice or comment on the assessment application.

The assessment application and the accompanying report will also be made publically available on the DILGP website from the time the assessment application is made until the time it lapses or is withdrawn or, if is decided, until the end of the last period during which an appeal may be made against a decision on the application. However, information will not be made publicly available on the DILGP website to the extent that it is provided by an owner of land (as defined in schedule 1 to the RPI Act) (an owner) who is not the applicant, and is commercial-in-confidence or personal information, and that owner has not consented to its disclosure, or to the extent that it is information which is considered to be sensitive security information.

Where an application proposes a resource or regulated activity in a priority agricultural area (PAA) and the applicant is required to provide information about the productive capacity or operation of a priority agricultural land use to address the prescribed solutions in the Regional Planning Interests Regulation 2014 (schedule 2, part 2), the information is to be provided in a separate document attached as an appendix to the assessment application report and the application must:

- identify the source of the information provided, including whether the information was provided by an owner other than the applicant
- state whether an owner other than the applicant agrees to the information being made publicly available on the DILGP website; and if so:
  - provide the express written agreement of that owner to the information being made publicly available on the DILGP website.

If an owner, other than the applicant, does not provide express written agreement, the information will not be made available on the DILGP website with the other application information. You may also be required to publicly notify your application. A notice about the chief executive's decision relating to your application will also be publicly notified.

Your personal details will not be disclosed for a purpose outside this assessment process, except where required by legislation (including the *Right to Information Act 2009*). This information may be stored in a database by DILGP.

The information collected will be retained as required by the *Public Records Act 2002*.

## 10. Declaration

This declaration needs to be made by the individual applicant or, when the applicant is a company, an authorised person or persons who have the authority to act on behalf of that company in accordance with the *Corporations Act 2001* (Cth).

Where the declaration is made by a person who is authorised in writing to make that declaration on behalf of the company, evidence of that authorisation must accompany the application.

- ☒ By making this application, I declare that all the information in this application is true and correct and that I have read and understood the '*Use and Disclosure of Information statement*' on this form.
