# 1.0 Introduction

The State Assessment and Referral Agency (SARA) was established in July 2013, with the objective of delivering a coordinated, whole-of-government approach to the state's assessment of development applications.

Since its inception, SARA has aspired to become one of the most efficient and effective regulatory assessment entities in Australia. To advance this goal, SARA's operations are underpinned by a strong culture of continual improvement and a range of supporting governance initiatives.

Two key elements of SARA's improvement culture have been yearly reporting against a suite of adopted key performance indicators (KPIs) and an annual customer satisfaction survey, covering the various facets of SARA's functions. At the end of the financial year reporting cycle, actual performance against the adopted KPI targets is measured and documented in this annual report.

SARA's KPIs and annual customer satisfaction survey inform ongoing improvement and drive organisational change to deliver efficiency and best practice in the state's development assessment services.

SARA's KPIs for the 2016–17 financial year are consistent to those adopted for the previous (2015–16) financial year and focus on the following key areas:

- Pre-lodgement processes.
- Information Requests.
- FastTrack5 assessment timeframes.
- Overall assessment timeframes.
- Post-decision assessment timeframes.
- Appeals.
- Customer satisfaction.

The adopted KPIs are therefore not only deliberately challenging, but enable a direct comparison of SARA's performance between the 2016–17 and 2015–16 financial years.

The following report provides a summary of SARA's 2016–17 assessment activity and SARA's performance against its adopted 2016–17 KPIs. To measure SARA's performance against its qualitative KPIs, the Planning Group undertook its annual customer satisfaction survey. The results of this survey are also included.

With the commencement of the *Planning Act 2016* (Planning Act) on 3 July 2017, the following report is the final annual report to be prepared under the repealed *Sustainable Planning Act 2009* (SPA).

## 2.0 Summary of SARA Activity

For the 2016–17 financial year, SARA issued a total of 3656 decisions and responses, comprising:

- 316 assessment manager decisions
- 1711 concurrence agency responses
- 206 pre-referral responses
- 925 permissible change decisions
- 498 extensions to relevant period decisions.

Additionally, SARA provided 571 pre-lodgement meetings or pieces of written pre-lodgement advice. This equates to 28.2 per cent of the 2027 assessment manager decisions and concurrence agency responses subject to SARA's pre-lodgement services.

A breakdown of SARA's activity for the 2016–17 financial year is shown in Figure 1 below.

Figure 1 – SARA's activity breakdown for 2016–17

Of the total number of responses/decisions issued, only 16 appeals related to a SARA condition(s) or decision.

## 3.0 SARA's performance against 2016–17 KPIs

The following sections provide a snapshot of SARA's performance against the adopted KPIs for the 2016–17 financial year. The KPIs cover several core areas including customer satisfaction, assessment timeframes, information requests, pre-lodgement processes and appeals. The KPIs are measured against:

- **Quantitative targets** through data obtained from the digital 'My Development Assessment System' (MyDAS)
- **Qualitative targets** through data obtained from satisfaction surveys.

As indicated in the below tables, SARA's performance in all areas, including where SARA did not achieve the adopted target, except for pre-lodgement advice, has improved when compared against the 2015–16 survey results.

### 3.1 Quantitative targets

#### 3.1.1 Pre-lodgement processes

KPI #	Measure	Adopted target	2016–17 result	2015–16 result	Adopted Target Achieved?
1	The time taken to issue written pre-lodgement advice	Adopted target	10 median business days		
		2016–17 result	11 median business days		
		2015–16 result	13 median business days		
2	The time taken to arrange a pre-lodgement meeting date <sup>1</sup>	Adopted target	5 median business days		
		2016–17 result	3 median business days		
		2015–16 result	5 median business days		
3	The time taken to issue pre-lodgement meeting minutes	Adopted target	7 median business days		
		2016–17 result	12 median business days		
		2015–16 result	12 median business days		

<sup>1</sup> This KPI reflects the time taken for SARA to arrange/set a pre-lodgement meeting time and date (regardless of the date of the meeting), from the date of the pre-lodgement request. It ensures pre-lodgement requests are processed and responded to in a timely manner. It does not address the timeframe between the date of the request and the date of the actual meeting (as this can be influenced by numerous factors despite SARA endeavouring to ensure meetings occur as soon as possible).

## 4.0 Customer satisfaction survey results

The 2016–17 customer satisfaction results draw on two streams of input, being:

- SARA’s customer satisfaction survey, delivered via the online survey program, Survey Monkey, and sent to applicants
- The Planning Group’s Voice of the Customer Survey, which included an online SARA client satisfaction survey delivered through Survey System, and sent to frequent users of SARA’s services, namely planning consultants.

SARA’s 2016–17 customer satisfaction survey results are therefore an aggregate of data obtained via the two streams of input. Combined, a total of 75 responses were received.

The surveys were conducted between June 2017 and September 2017 and included a number of questions covering a range of SARA functions, services and tools, including:

- pre-lodgement advice
- information requests
- decision notice, concurrence agency responses and conditions
- staff service
- MyDAS.

The 2016–17 satisfaction survey results are shown in the following table, together with a comparison against last year’s results.

SARA customer satisfaction survey results	2015–16 Survey	2016–17 Survey	Improvement on 2015–16?
<b>Pre-lodgement advice</b>			
Pre-lodgement advice clearly communicated SARA's position, expectations and advice	67% agreed	35% agreed	
<b>Information requests</b>			
The information request was clear and concise	57% agreed	62% agreed	
The information request was reasonable	50% agreed	71% agreed	
<b>Decision notices, concurrence responses and conditions</b>			
The conditions were reasonable	72% agreed	76% agreed	
The conditions were clear and concise	75% agreed	77% agreed	
The conditions included reasonable timing/ timeframes for required actions	75% agreed	87% agreed	
<b>Staff service</b>			
How satisfied were you with the level of service provided by SARA officers?	74% Satisfied	88% satisfied	

As the survey questions relating to MyDAS have remained constant since the 2014–15 financial year, the following table shows how customer satisfaction relative to MyDAS has tracked over time.

As shown, MyDAS represents a clear area for improvement, however it is encouraging to again see improved results in all measures. This data will again be examined in the year ahead to monitor the changes implemented through MyDAS2, which came into operation on 3 July 2017.

<b>MyDAS</b>	<b>2014–15 survey</b>	<b>2015–16 survey</b>	<b>2016–17 survey</b>	<b>+/- from 2015–16 survey</b>
How satisfied were you with MyDAS?	37% satisfied	45% satisfied	61% satisfied	+ 16%
The lodgement process was simple and user-friendly?	28% agreed	29% agreed	57% agreed	+ 28%
It was easy to pay my fee?	37% agreed	45% agreed	65% agreed	+ 20%
I could log in any time and track my application?	54% agreed	68% agreed	84% agreed	+ 16%

Additionally, new KPIs for 2017–18 financial year, which are relevant to the *Planning Act 2016*, have been adopted and are available on the department's planning website <https://dilgpprd.blob.core.windows.net/general/sara-key-performance-indicators-2017-18.pdf>.

SARA will publish its annual KPI report, detailing actual performance against the adopted KPIs at the completion of the 2017–18 financial year.
